### THE BEST TEACHER.

I am a boy 12 years old. I go to school at a little school house in District No. 51, about two miles from Vernonia.

Within thirty rods of the beautiful Nehalem river. The playground is about one square acre, and I am glad to say the grass is all cut and the yard is neat and clean.

The Pacific road runs north and south through the county, and the township line road runs east, past the school house. We have windows just on the west and south side of the house.

We have a nice bell and you can hear it over the district.

The scenery around and over our school house is great, the foliage as it turns to its golden hue, mingled with the green, makes a lovely contrast. Oh! how I love this little white school.

Our teacher decorates the walls inside with mottoes and nice pictures and it makes it a pleasure to go to school here, and best of all to help to make this school and schoolhouse complete.

We have the best teacher in the county, state, or in the United States.

LEONARD DONELSON.

### UP SALT CREEK.

Houlton, Ore., Nov. 5, 1914.

St. Helens Mist, Dear Sir:

I would like to use the columns of your valuable paper, to inform my friends that I have just returned from my trip up Salt Creek. I started up on the night of November 3rd at 8 p. m., and struck the ground today about noon, with a dull, sickening thud of huge proportion. There were several others that made the trip with me, and take it all in all, it was a very delightful trip.

At the present writing I am forked end down, with care, and have no sore spots whatever, in fact with the short acquaintance I have in Columbia County, I am more than satisfied with the result of the recent election, and wish to thank the people of Columbia County for the support that was given me, and with the best of wishes for my successful opponent I am,

Sincerely Yours,  
N. O. LARABEE.

## Come! let us reason together

Why send East, or elsewhere, for furniture when Portland manufactures almost as much furniture as any city in the United States. I buy almost wholly direct from these factories, hence money paid me for furniture is either spent here in St. Helens, or goes no further than Portland. Patronize home industries. That makes better times.

## Typewriter Gives Business Standing

The small town merchant, the rural business man or the farmer who uses a typewriter has the advantage over the man who does not. The typewriter not only saves time in writing letters and making out bills, but it adds prestige and reputation to the user.

### The L. C. Smith & Bros. Typewriter

is especially adapted to use in rural districts because it will stand more wear and does not require an expert operator. By following the instructions we will give you, you will have no trouble learning.
